## **EU REACH SVHC- 201 statement**

This statement concerns European Union regulation (EC)1907/2006 18<sup>th</sup> of December 2006, updated on the 16<sup>th</sup> of July 2019, REACH Regulation and Registration, Evaluation, Authorization and Restriction of Chemicals (201 substances) and applies to all Kohsel products.

Kohsel A/S manufactures inductive components; transformers and choke coils, and in relation to REACH – we are a downstream user. The transformers and choke coils we supply to you are solely non-chemical goods and shall not release any substance under normal circumstances. Kohsel A/S is neither obligatory for the registration nor for the creation of material or safety data sheets (SDS/MSDS).

We will immediately inform you in correspondence to REACH – article 33, if any substance of content (as from a content of > 0.1%) in our goods will be classified as alarming by the European Agency for Chemicals (ECHA).

Independent of the fact, we are intensively pursuing the realisation of REACH on the part of our suppliers. We are in close contact with our suppliers of chemistry and prepared material.

As a part of our supplier qualification, we have implemented a registration process to secure relevant information from our suppliers.

Best regards  
Kohsel A/S

Henrik Sørensen  
CEO
