COMPANY ANALYSIS

This Company Analysis outlines the numbers on which we have based your company's credit rating. The analysis provides you with well-substantiated documentation as to whether or not your company is a creditworthy and reliable business partner, and can also serve as a tool in negotiating with existing and potential business partners.

The Company Analysis has a wide range of applications, from purchasing, tendering, negotiating with suppliers, competitive tendering to presentations and board meetings. It gives you thorough insight into whether your company is among the most creditworthy in the Danish industry and the reasons why.

COMPANY

COMPANY NAME	Kohsel A/S
ADDRESS	Sønderskovvej 1
CVR NO.	32517714
D-U-N-S NO.	305827073
TELEPHONE NO.	87680808
ACCOUNTS	2020-04-30

RATING

AAA
Highest credit worthiness
Credit limit 14.775 tDKK

Bisnode Danmark's credit assessment consists of a rating and a recommended credit limit. The rating ranges from AAA-C and shows the company's creditworthiness. The letter code indicates the risk of doing business with a specific company.

The recommended credit limit is the maximum value that Bisnode Danmark recommends companies to have outstanding with a given debtor. The amount of money is based on several criteria including Bisnode Danmark's rating which is a statistic calculation of a company's creditworthiness. The credit limit can be used as a indicative guideline or as a part of a semi automated credit policy.

The Rating Guide on page 8 describes our individual ratings in greater detail, and page 10 outlines the various bankruptcy risk scores for each rating.

ASSESSMENT COMPONENTS

Bisnode Danmark's credit rating and credit limit are based on the following assessment components: Basic Data, Ownership, Finances and Payment History.

BASIC DATA

Bisnode Danmark conducts a review of the general conditions of the company. Review parameters include determining whether the company is a going concern, in suspension of payments or undergoing liquidation proceedings. The company profile also details when the company was established, under which business segment(s) it is registered, etc.

OWNERSHIP

Bisnode Danmark determines whether the company is part of a group and, if so, will review the state of the parent company.

FINANCES

The company's finances represent the most important assessment component. This component will be based on the company's annual financial statements.

PAYMENT HISTORY

This component details past payment experiences. Here, Bisnode Danmark reviews the company's payment patterns by number of days an invoice is paid in advance/overdue.

Basic Data	Ownership	Finances	Payment History
Well established	Excellent	Excellent	Very Negative
Established	Good	Good	Negative
Newly established	Satisfactory	Satisfactory	Weak
Newly established	Weak	Weak	No remarks
No rating	Poor	Poor	Not possible to calculate
Being Liquidated	No Remarks	Accounts out of date	
Bankruptcy	Not possible to calculate	Accounts not available	
Dissolved		No Rating	
Not possible to calculate		No remarks	
		Not possible to calculate	

This table illustrates the basis of evaluation in each assessment component.

RATING HISTORY

A company's rating history shows its long-term creditworthiness and is a measure of its current stability.

This graph illustrates the historic rating of the company.

Date	Rating	Credit limit
2020-10-15	AAA	14.775
2019-10-14	AAA	13.891
2019-10-08	AAA	14.535
2018-10-08	AAA	14.535
2017-10-04	AAA	11.468
2016-09-26	AAA	13.454

RATINGGUIDE

The accuracy of Bisnode Danmark's credit assessment system helps you say yes to more businesses and no to losses. The credit assessment consists of a rating, which is based on more than 2.400 decision rules. This guarantees you the most comprehensive and accurate credit assessment at the market.

We operate with the AAA rating, which is used to assess the creditworthiness and health of the Danish businesses. The rating shows the probability that a company imposes payment problems on its suppliers. The probability is presented as a letter code ranging from AAA, the best, to C, the worst.

RATINGGUIDE

AAA

The AAA (triple-A) rating represents an especially strong capacity to meet current financial commitments.

AA

The AA (double-A) rating is the highest rating that can be held by a sole proprietorship. It represents a company with strong capacity to meet its current financial commitments.

A

An A (single-A) rating represents a company with sufficient capacity to meet its current financial commitments.

NY - Newly started companies

Recently established company. There is no unfavorable information regarding the company's solvency. The company's further progress should be closely monitored.

B

Credit risk. Bisnode Danmark has determined that the company's capacity to meet its current financial commitments is weak.

C

High credit risk. The company's capacity to meet its current financial commitments is estimated to be very poor.

IR - Cannot be rated

Significant information regarding the company is missing or outdated. Enterprises such as banks, insurance companies, investment firms, etc. will automatically receive this rating.

RATINGS DISTRIBUTION AND BANKRUPTCY RISK SCORE

The following table illustrates the significance of the various ratings. It also lists the number of companies in Denmark that have achieved the various ratings and the risk of bankruptcy associated with the individual ratings.

Rating explanation	Rating	Number of companies	Bankruptcy Risk Score
Highest credit worthiness	AAA	23.627	0,31
Good credit worthiness	AA	82.451	0,63
Credit worthy	A	94.047	1,81
Credit against security	B	14.038	4,66
Credit rejected	C	37.073	9,36

This table illustrates the rating scala, the statistic risk of bankruptcy and the number of Danish companies with the individual rating.

Liabilities, total	103.470	78.556	77.175	81.233	57.777

PAYMENT INDEX

The Payment Index is a key figure and variable that shows the payment behaviour characteristics of companies. This analysis lists the payment experiences registered for the company in question. The Payment Index consists of data gathered by Bisnode Danmark's business partners with respect to their customers' payment patterns.

The Payment Index is weighted for invoiced amounts. If a company has a Payment Index of 80, this means that on average the company pays its invoices on the due date. A Payment Index over 80 means that the company pays its invoices before the due date, whereas the opposite is the case with a Payment Index under 80.

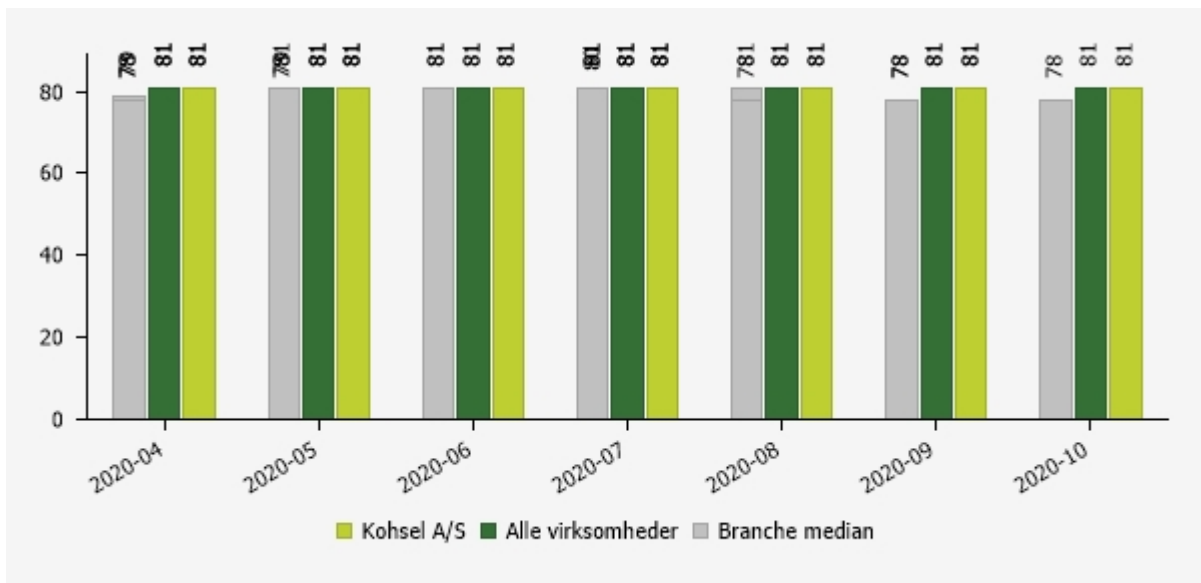

On the following page, the company's payment trend is compared to the relevant business segment median. This illustrates the payment experiences for the company in relation to the general payment experiences within the business segment. The payment trend is compared to the business segment for Manufacture of electric motors, generators and transformers.

PAYMENT EXPERIENCES FOR THE COMPANY

Date	2020-10-23
Payment Index on Kohsel A/S	81
Payment Index on business segment	Manufacture of electric motors, generators and transformers
Number of Invoices	63
Average number of days (before/after due date)	0

As of 27/10 - 2020, Bisnode Danmark has received information for the following number of paid invoices 63, totaling DKK 381.255.

PAYMENT INDEX

This graph illustrates the Payment Index of the company. If a company has a Payment Index of 80, this means that on average the company pays its invoices on the due date. Payment Index over 80 means that the company pays its invoices before the due date.

The average payment after the due date is regarded as the mean, which means that the number is not weighted and does not take into account invoiced amounts.

Date	Payment Index on Kohsel A/S	Payment Index on business segment	Average days after due date	Number of Invoices	Amount in DKK	Number of suppliers
2020-10	81	78	0	63	381.255	2
