

Hørning, 12th of April 2021

EU REACH SVHC- List of substances for authorisation now contains 211 substances.

This statement concerns European Union regulation (EC)1907/2006 18th of December 2006, updated on the 19th of January 2021, ECHA has added two new substances to the Candidate List. They are toxic for reproduction and therefore, may adversely affect sexual function and fertility, and cause developmental toxicity in offspring and the environment. (211 substances) and applies to all Kohsel products.

Additional 4 Substances (19 January 2021)

- Bis(2-(2-methoxyethoxy)ethyl)ether
- Dioctyltin dilaurate, stannane, dioctyl-, bis(coco acyloxy) derivs., and any other stannane, dioctyl-, bis(fatty acyloxy) derivs. wherein C12 is the predominant carbon number of the fatty acyloxy moiety

Kohsel A/S manufactures inductive components; transformers and choke coils, and in relation to REACH – we are a downstream user. The transformers and choke coils we supply to you are solely non-chemical goods and shall not release any substance under normal circumstances. Kohsel A/S is neither obligatory for the registration nor for the creation of material or safety data sheets (SDS/MSDS).

We will immediately inform you in correspondence to REACH – article 33, if any substance of content (as from a content of > 0.1%) in our goods will be classified as alarming by the European Agency for Chemicals (ECHA, <https://echa.europa.eu/candidate-list-table>)

Independent of the fact, we are intensively pursuing the realization of REACH with our suppliers. We are in close contact with our suppliers and requested that they review their components' raw materials, alloys, and additives against the REACH SVHC Candidate List.

As a part of our supplier qualification, we have implemented a registration process to secure relevant information from our suppliers.

Best regards,
For Kohsel A/S
