

As the first transformer manufacturer in the world, Kohsel is now a APQP4Wind Company Member.

We have completed and passed the examination of the APQP4Wind training.

In parallel with the APQP4Wind training, Kohsel have incorporated the APQP4Wind manual into our ISO 9001 Quality system.

Kohsel is part of the global movement towards renewable energy. Our transformer, reactors and filters are used by customers developing the next generation of wind turbines.

Kohsel A/S is a European transformer manufacturer with global production. With +500 employees, we have the agility, experience and expertise to effectively prototype and deliver high quality with built-in know-how.

APQP4Wind is a non-profit association founded by world-leading Wind Turbine Manufacturers and Suppliers.

The background for APQP4Wind is the continuous quality improvement that is needed to keep pace with the ongoing trend towards decreases in the Levelized Cost of Energy within the wind industry.

APQP4Wind aims to make the process of product quality assurance demands (APQP) as well as the product release process (PPAP) as clear as possible.

The standards made available in APQP4Wind have been created to substitute company-specific procedures and set aligned methods and procedures for all Suppliers and Sub Suppliers.
